Bayamón Central University Overview

History

Bayamón Central University (BCU) was founded in 1961 by the Dominican Order, as an extension of the former Catholic University of Puerto Rico. In 1970 BCU became an independent and autonomous institution, while retaining its original accreditation status by the Middle States Association of Colleges and Schools (MSA) as a regional college. In December of 1971, BCU received for the first time its full accreditation as an independent, private non-for-profit university. BCU offers educational opportunities for all qualifying students without regard to age, gender, race, religious beliefs, political affiliations, or physical impairments.

Bayamón Central University is in the City of Bayamón located within the metropolitan area of San Juan, Puerto Rico. The campus is situated in 55 acres of land and comfortably distant from the noisy avenues of the City of Bayamón. There are 12 buildings which provide a total of 199,660 square feet of useful space to carry out its educational activities.

BCU offers academic courses and degrees at graduate and undergraduate levels in the areas of: liberal arts, sciences, health professions, education, and business. As a Puerto Rican university, it identifies with the cultural values and the social redemption of our nation, and at the same time it opens itself to brotherly and universal solidarity.

In the attainment of the university goals -research, teaching and service, among others- the University nurtures the holistic development of the human being in the spiritual, community and professional dimensions, as well as in the academic and cultural realms. This development is achieved within a Christian-humanistic perspective, organically integrating human knowledge, social commitment and the message of the Gospel. The harmonious communion among faith, life, culture, and service is nourished by an interdisciplinary dialogue, in accordance with the teachings of St. Thomas Aquinas and the traditions of the Dominican Order.

Accreditation Status

On July 1, 2003, the Middle States Commission on Higher Education (MSCHE) notified Bayamón Central University (BCU) some concerns regarding possible non-compliance with accreditation standards. The report requested documenting a more substantive, detailed response to the following concerns (1) development and implementation of a comprehensive written plan for the assessment of institutional effectiveness and student learning including the establishment of learning goals at the institutional, program and course level (2) steps taken to strengthen graduate education (3) development and implementation of a comprehensive enrollment management (4)
steps taken to strengthen information literacy and library/learning resources (5) steps
taken to strengthen shared governance.

BCU submitted its Monitoring Report (MR) on March 1, 2005 and received the visit
from the monitoring team in October 2005. On November 16, 2005, the Middle States
Commission on Higher Education accepted the monitoring report and awarded full
accreditation. An additional Progress Letter was forwarded on December 1, 2006,
documenting steps taken to strengthen shared governance. The Progress Letter was
accepted by the commission.

The Monitoring Visiting Team commended BCU for the significant steps taken in
addressing the issues raised by MSCHE and encouraged us to continue along the path.
Some of the steps included changes in leadership, administration, and other key issues. A
confident vision for BCU’s future was achieved, and a team of professionals with a sound
understanding of that vision was willing to move forward.

On June 1, 2008 Bayamon Central University (BCU) submitted to the Middle States
Commission on Higher Education (MSCHE) its Periodic Review Report. On November 20,
2008 the Commission accepted the Periodic Review Report and reaffirmed BCU’s
accreditation; nevertheless a progress letter, due by October 1, 2010, was requested along
with the following documentation: (1) steps taken to strengthen the institution’s finances
(Standard 3); and (2) steps taken to improve student enrollment and retention (Standard
8).

On November 18, 2010 the Middle States Commission on Higher Education
(MSCHE) accepted the progress report and reaffirmed our accreditation. The next
evaluation visit is scheduled for 2012-2013.

**BCU Vision Statement**

Following the spirit of Saint Thomas Aquinas, and inspired in the multi-secular
charisma of the Order of Preachers, Bayamon Central University has the mission of
promoting the integral development of its students by means of an education of academic
excellence that will form professionals and leaders with high social commitment, capable of
constructing a cultural, scientific-technological, and business world, based on the
evangelical values of Christian Humanism.

**BCU Mission Statement**

Bayamon Central University will be recognized as a unique center of Christian
humanist formation and social transformation, which its student-centered academic
programs and quality of university life provide professional training responding to the
most crucial needs in the social, cultural, economic, and ecclesiastic institutions, in
accordance with the state of the knowledge, technological advancements, and the values of
the Gospel.
BCU Values Statement

Bayamon Central University as a Catholic institution of higher education founded by the Friars of the Order of Preachers is committed to promoting in its students, faculty, and employees the following values:

CHARITY, as a supreme evangelical value, which moves and sustains all human deeds, consequently in the intellectual, cultural, social, economic, technological spheres, etc.

SPIRITUALITY, that integrates in depth the human being to serve society with conscience of itself in relation to others, with the environment, and with God.

STUDIOUSNESS, that seeks the attention of all human capacities to discover the truths that will lead the human being to live in state of internal and external freedom.

TRUTH, as a goal and result of the dedication to study, investigation and spirituality, always cherished and constantly sought in the most diverse fields of knowledge and realities of the human experience, according to what Saint Thomas Aquinas has witnessed.

CULTURAL PROMOTION, as an expression of all the capacities of the human being that inspire and give sense to human life in society, following and innovating the national and globalized tradition.

PROFESSIONALISM, which procures the optimum preparation and performance for the services to be offered to the ecclesiastic and civil society of today, from a high ethical, dynamic, and innovative sense.

INTEGRITY, which commits our institution with the compliance of all the laws, norms, and regulations of the State, of the licensing and accreditation agencies, as well as with internal policies.

COMMUNITY LIFE, as a goal and principle to build a just, fulfilled and peaceful society through respectful dialogue, open and clear communication, accepting diversity as richness, striving always to work together.

SOCIAL JUSTICE, as a concern and commitment to the construction and transformation of the most varied dimensions of the Puerto Rican and international society.

SOLIDARITY, that emanates from the drive for social justice and charity in the day to day actions of each member of the university community that puts to the service of others all that the Creator has offered as a gift.
2007 - 12 Strategic Plan

To deal with our main challenges (increase enrollment, improve retention and improve our fiscal situation) BCU set three (3) strategic directions in our 2005-12 five year Strategic Plan. Each of these strategic directions comprised a set of goals aiming to fulfill our Mission:

Strategic Direction 1 (SD1): Establish an academic offering that favors our development as an institution of higher education of excellence in all of its academic levels. An academic offering that responds to the academic standards and characteristics of excellence, established by our accrediting institutions and regulating agencies, according to the global and local demands of society.

Strategic Direction 2 (SD2): Create a new learning environment that develops the capacity, creativity, and sensibility of all its members (directors, faculty, students, administrative and managerial personnel) in order to develop the quality of the university, community, and social commitment.

Strategic Direction 3 (SD3): To fortify the physical and technological structures of BCU, so that it simultaneously allows the development of the learning environment and fortifies the management and decision making process.

Important Changes BCU in the past 5 years

BCU has addressed various situations as a result of the recommendations made by MSCHE in 2003. BCU presents itself before this accreditation as a higher education institution that has strengthened its governance, improved its physical facilities, technological infrastructure, and fiscal situation.

Curriculum review and academic offering

In 2007 BCU initiated a curriculum review process in order to be more competitive and achieve accreditation from different international professional organizations such as: Council on Social Work Education (CSWE), Collegiate Nursing Education (CCNE), Teachers Education Accreditation Council (TEAC) and the Council on Rehabilitation Education (CORE). This process includes updating and improving the Natural Sciences laboratories and the incorporation of technology in the teaching process.

Based in our five year Strategic Plan, BCU submitted and was awarded two Title V grant proposals by the U.S. Department of Education:

- In 2007, a Title 5 grant was awarded to Revitalize General Education and Critical Degree Programs with the following: (1) Revitalize the General Education Curriculum. (2) Revitalize the Nursing Program. (3) Revitalize the Social Work Program. (4) Improve the Information Technology (IT) Infrastructure; implement a student data tracking and analysis system, and an e-advising module.
In 2010, a Title 5 PPOHA grant was awarded to strengthen our graduate instructional resources and redesign curricula to support a higher quality, more accessible, and supportive graduate education. The overarching goals are to increase the quality of the graduate programs and increase the number of graduate degree awarded. Funds were awarded to (1) redesign in-demand graduate programs as research and thesis oriented, and to provide graduate faculty (Graduate Faculty Center) and students adequate resources (Graduate Student Support Center); (2) expand master’s specialization and certificate offerings in targeted programs; (3) develop a Virtual Graduate Program (online graduate studies) to increase access to post-baccalaureate programs and, (4) provide graduate scholarship for low-income students.

Also in the Title 5 PPOHA additional funding is assigned to expand the library holdings to support research and thesis oriented graduate studies.

In 2010 the governing bodies of the Institution approved a new General Education Program that responds to the needs of the students, the institutional philosophy, and the changes in the labor market. This process of curriculum revision will conclude in the summer 2012.

In December 2010, BCU initiated the process of curriculum revision of the Graduate Program. This initiative will impact the academic offerings of the Graduate Program and the development of various courses in the distance modality. Resources will also be acquired for the management of information, bibliographical references, the acquisition of books and others educational materials for the Library.

During 2008-2010, BCU designed and implemented a program for mentoring, tutoring and assisting students with academic deficiencies in the areas of science and math. The Institution realigned various courses of the School of Liberal Arts, Science and Health Professions and improved the infrastructure of the science Building San Alberto Magno. BCU plans to offer tutoring services in all of its colleges.

**Strengthen the Institution’s finances**

BCU improved its budgetary and financial reporting system to assists management in assessing the financial stability of the Institution in support of its Mission, goals and objectives. Specifically, it has improved the accounting procedures in the Accounting and Finance area as follows:

- Implementing monthly closing procedures to ascertain that the financial statements are reliable and completed on time.
- Using Colleague Financials as the new program for financial reporting purposes. The Colleague program was implemented in July 1, 2009.
- Completing the Colleague General Ledger Course offered by the Datatel Company.
- Preparing financial statements in accordance with GAAP on a monthly basis for
decision making as required.

- Including the students’ accounts receivable in the Colleague program and monitoring the student deposits and accounts effectively. A similar process occurs with the payroll system.

- Other important measures were taken to strengthen our financial situation, such as:
  - As of July 1, 2009, as a result of the All Year Round Pell concept implementation BCU allocated more resources to the support its Mission, goals and objectives. The All Year Round Pell implementation increased our income by approximately 29%.
  - Budget and expenses control. During the fiscal year 2009-10, the University established an Annual Budget of $11,054,480, while the actual expense for June 30, 2010 was $10,996,392 (excluding depreciation expense). The approved Budget for the period 2010-11 is $12,457,055 and this increase (12%) was possible as a result of the Year Round Pell implementation.
  - Development of service agreements between BCU and governmental agencies and increase of Continuing Education Program (CAP) offerings by the Center of Professional and Technical Development (CEDEPT). This agreements and the CAP offering growth produced a 216% increase in revenues, ($103,381 to $327,071) from 2008 to 2009.

It’s important to state that even through turbulent financial times we are living, BCU’s investment portfolio increased from $6,491,037 to $7,142,067 during the period of June 30, 2009 to June 30, 2010. But still, BCU’s main source of revenues (approximately 76%) is Tuition and Fees whose principal funding comes from, Pell Grants and Loans.

**Improve student enrollment and retention**

BCU seeks to increase its enrollment and retention, and to fulfill this challenge BCU needs to have an effective recruitment process, excellent management and registration services, and an effective retention process.

BCU’s first semester total enrollment has shown a downward trend over the last decade. From the academic year 2000-01 to the year 2009-10 the total enrollment has decreased by 30.0%.

The downward trend is also noted for twelve months unduplicated head count enrollment. During the first five years of the academic years 2000-01 to 2008-09, the unduplicated headcount was over 4,000 students, while in the last three years enrollment did not reach this figure.

The freshmen enrollment has also reflected a downward trend for the past seven years, bringing down the numbers from approximately 400 to 248 in 2006-07. Following that year the trend has been upward and stable until the 2010-11 academic year when 330 new students were enrolled.
To address the aforementioned situations and to comply with Standard 8, BCU developed a Strategic Enrollment Plan. In 2004, a Strategic Enrollment Plan was issued and updated in 2008. The plan proposes the following goals:

- Establish a customer service culture where “Students are first”.
- Set up an easy flowing enrollment process.
- Increase retention and student success (graduation rate).
- Increase student enrollment.
- Position BCU in social communication media and social networks.

To integrate the recruitment, admission, retention, and academic success, BCU strategically restructured the student service offices under a new functional area named Strategic Enrollment Management Area. This functional area consists of the following service offices:

- Recruitment
- Admissions
- Guidance and Counseling
- Bursar
- Student Financial Aid
- Registrar
- Mentoring and Transfer Students Services

This measure resulted in the elimination of unnecessary steps to accelerate and improve the enrollment process.

In order to promote a customer service culture among the administrative personnel, especially among those working directly with students, the University established an action plan in January 2008 with Datatel’s Professional Services to:

- Audit the Colleague database and update the data for reliable results.
- Train the administrative personnel to understand the functions and management of the Colleague Program in the following areas:
  - Admissions/Recruitment
  - Active Admissions
Currently (Academic year 2010-11), as part of a Title 5 Project, Bayamon Central University is adding or adjusting the following modules:

1. Degree Audit: University has Degree Audit currently setup. Datatel’s Consulting will support adjustments and modifications required to successfully roll out.

2. e-Advising: To provide tools that allow diverse advising needs and approaches, depending on programs and provide for the: (a) traditional one-on-one advising format, (b) impromptu advising sessions, (c) complete online self-advising, or a combination of all three techniques. This module will strengthen retention efforts through the use of advanced online services; also, allowing advisors to seamlessly exchange information regarding students, course offerings, and registration guidelines. This module will provide support to the development of strategic course planning based on student’s academic path.

3. Retention Alert: To track and monitor at-risk students through Colleague triggering alerts based on predetermined scenarios, or manual triggers such as those from an instructor or advisor. This module will help us track the progress and overall results of the University’s efforts. Retention Alert implementation services will be provided prior to June 30, 2011 as part of Year 4 of the Title 5 Grant. The remainder of the Retention Alert Services will be provided beginning July 1, 2011 as part of Year 5 of the Title 5 Grant.

**Physical Facilities**

The BCU Student Center building was completed in 2006 to relocate all the student services and the Graduate Program. This facility is a four floor 46,000 square feet concrete structure, with bathrooms on all floors, two elevators, and two fire escapes. It also has an emergency power generator that supplies 100% of the building’s electricity. The first floor has a 326 seat theater, a chapel with 60 seat capacity, an office for the chaplain, and a cafeteria with its kitchen and dining area. On the second floor are offices of the College of Education, a student center, a first aid emergency area, Quality of Life Office, and the Office of the Dean of Students Affairs with its conference room. The third floor has the Office of Counseling with its conference rooms, computer room, tutoring offices and three classrooms (one with an observation laboratory area). The fourth floor has 8 classrooms, 7 faculty offices, and a teaching practicum laboratory.
Library

Dr. Margot Arce de Vázquez library has been instrumental in enhancing the teaching and learning process. The students can find the necessary tools for research. They can log in from their homes into the library consortium known as the Metropolitan Library Consortia (COBIMET) networks or to the interlibrary loans process. Funding resources allocations are assigned to periodically up-grade the collection and the COBIMET membership. The Library also has: (1) Bibliographical instrumental modules to strengthen data base and research skill. (2) Instrumental module such as: APA style writing, essays and outlines among others. (3) Technical assistance in searching and locating information. (4) Faculty digital resources in the reserve area.

The library operates from 8:00 a.m. to 10:00 p.m. Monday through Thursday and from 8 a.m. to 5 p.m. on Fridays and Saturdays. Access to our Catalog has been granted through the BCU Webpage.

Governance and leadership

In September 2006, the Board of Trustees and the Council of Founders conducted their election. Eng. Juan José Sánchez was elected President of the Board. The Council of founders appointed Father Angel Valentín, O.P. as head of the Council. The Board of Trustees has increased its members to sixteen and activated all of its Commissions. Almost every Board of Trustee’s Commission includes a member of the Council of Founders. During the last year the Bylaws have been submitted to a thorough evaluation by the Board of Trustees.

In 2007 the Board of Trustees gave their support to the former president’s proposal to reorganize the university. This proposal included an academic reorganization of the five (5) existing academic departments into three (3) colleges: 1) College of Arts Science and Health Professions, 2) the College of Management and Technology and 3) the College of Education and Behavioral Professions. In addition each college offers its own graduate program.

In the reorganization the Management Information System Office responds directly to the President. A Technology Infrastructure Committee was established to plan the institution’s technology developments. Together with the reorganization BCU fortified and unified its management information system in a four phase action plan: (1) Strengthen the foundation of Colleague in the areas of WebAdvisor, records and registration usage, accounts receivable, financial aid and recruitment and admission. (2) Implementation of Colleague Finance module in the areas of general ledger, accounts payable/purchasing implementation and general financial consulting. (3) Implementation of Colleague human resources module (4) Implementation of the student retention and advising modules.
After retiring from the University of Puerto Rico, Prof. Nilda Nadal accepted the position of president of BCU for a three year term which concluded in August 2010. In September 2010, BCU appointed Dr. Lillian Negrón-Colón president of the University.

**All Year Round Pell**

As of July 1st, 2009, BCU implemented the All Year-Round Pell concept by expanding the summer session of the academic calendar. This new option offered the students the possibility of an accelerated path. 88 students (22%) of a graduating class of 398 were able to accelerate and complete their academic goal though the All Year Round Pell.

**New President Future Plans**

Dr. Lillian Negrón-Colón as the new president instituted a set of priorities that BCU should work with while the Strategic Plan is under revision, these priorities are:

**Academic Affairs**

- Revise and diversify the academic offering so it can respond to actual labor demands.
- Revise and update undergraduate concentrations and graduate specializations.
- Support academic programs that require accreditation, professional certifications, and professional exams.
- Promote the development of programs offered in distance education modality.
- Develop a policy for additional concentrations and minors.
- Strengthen short term careers to meet the needs of new demand of the society.
- Strengthen academic programs with consortiums with other postsecondary institutions in Puerto Rico and abroad.
- Promote student and faculty exchange with other postsecondary education institutions.
- Update the Institutional Assessment Plan
- Revise salary scales, promotion norms by rank, and the contracting process.
- Increase enrollment in undergraduate and graduate programs.
- Support academic programs initiatives in recruiting and retention of students.
- Continue to identify financial aid assistance for graduate programs.

**Human Resources**

- Encourage professional development of faculty and administration.
- Explore alternatives for the personnel retirement plan.
• Activate the Health and Security Committee.

**Investigation**

• Develop an academic investigation policy.
• Revise procedures of Institutional Review Board (IRB) for research with human beings.

**Student services**

• Improve Enrollment Management
• Strengthen alumni association.

**Finance**

• Carry out negotiations with banks to continue improving institutional credit and cash flow.
• Improvement and maintenance of infrastructure and facilities.

**Technological Infrastructure**

• Develop a Disaster Recovery Plan

**Public Relations and Communication**

• Develop an aggressive public relation and communication plan.
• Appoint a coordinator for the public relation and communication office.
• Incorporate a marketing agency into the institutional efforts.

**Institutional Planning and External Resources**

• Continue the search for external funds through proposals.
• Continue support to physical and technological infrastructure by developing projects funded US Federal Government.
• Involve faculty in grant writing.
• Revise Strategic Plan 2007-2011 with the participation of the university community.

**Library**

• Increase Library Holdings
• Revise the Technological Support Center's business plan to promote the development of a small business.
Community

- Establish community service as a graduation requisite
- Encourage faculty to participate in community service
- Develop multidisciplinary community service office which will be used as practicum center for social work, counseling and psychology students

Evangelization: faith & life

- Consider attendance to spiritual retreats as part of professional development of the employees.
- Develop academic and student activities that foster the Christian message.
- Strengthen the Catholic formation through all academic programs.
Self-study Process at Bayamón Central University

Intended Outcomes of the Self-study

Bayamón Central University has identified self-study outcomes that will serve to focus the self-study on key institutional questions and build a foundation for moving forward, including undertaking a new strategic planning process. This new planning process will begin during the self-study allowing us to conduct a comprehensive assessment of the current plan’s implementation. It will establish an extensive knowledge base for developing the institution’s new strategic plan.

Create a concise and constructive document that meets the needs of the Commission on Higher Education and serves as a valuable tool for institutional planning, change, and growth.

During the BCU Institutional Self Study, our institution will:

• Engage the campus community in a process of critical assessment of strengths and weaknesses that will provide the foundation for a new strategic planning process.
• Assess the institution’s current Mission Statement to establish its sufficiency and accuracy as we move into the future.
• Examine the efficacy of the institution’s structure for assessment (institutional, program, and course-level).
• Strengthen the institution’s ability to respond to change, with particular attention to the current and projected budget challenges.
• Ensure that the institution’s commitment to diversity, civility, and inclusiveness is integrated throughout the campus environment in all university processes. Assess the integration of technology and multimedia approaches in teaching and learning, and establish whether that teaching is flexible and responsive to the diverse learning styles of an ever-changing student population.
• Evaluate the system for enrollment management to maximize our ability, consistent with our mission, to recruit, retain, and graduate students.
• Identify best practices to improve advising at both the undergraduate and the graduate levels.
• Determine structures to support and reward faculty research.
• Continue the development of an assessment culture which began after the last visit of the MSCHE.
• Demonstrate compliance of the 14 accreditation standards.
• Focus on the concerns of the academic, administrative and student services of our
Establish discussion of the strengths and weaknesses of BCU as we face the new decade.

Use the results of the self study to improve the quality of education.

Self-Study Model Development

Usefulness of the Comprehensive Model

BCU selected a significant and useful Comprehensive Model for the educational community. This model provides a balance among the 14 standards and addresses the areas of priority identified by our university community. The Steering Committee and the working groups identified the evidence needed to support each standard and the areas that required greater attention.

The working group identified the following areas requiring greater attention: Faculty, Institutional Assessment, Assessment of Student Learning, Resources Allocation and Institutional Renewal.

Some documents and policies were identified for immediate review. Among the documents requiring immediate attention is the Faculty Manual. This manual does not take into consideration the change of the academic semester (All Year Round Pell that was implemented by BCU in August 2009).

The Comprehensive Model proposed by the Steering Committee disclosed to all the University community addresses the 14 standards of accreditation that are required by MSCHE.

Comprehensive Model Description

The comprehensive model selected by the Steering Committee organizes the 14 accreditation standards into (8) related areas.

Group 1: Mission, Goals, and Integrity

- Standard 1 – Mission and Goals
- Standard 6 – Integrity

Group 2: Planning, Resource Allocation, Institutional Renovation, and Institutional Resources

- Standard 2 - Planning, Resources, Allocations and, Institutional Renewal
- Standard 3 – Institutional Resources

Group 3: Leadership, Governance, and Administration
Standard 4 – Leadership and Governance
Standard 5 – Administration

Group 4: Student Admission, Retention and Student Support Services
Standard 8 – Student Admission and Retention
Standard 9 – Student Support Services

Group 5: Faculty
Standard 10 – Faculty

Group 6: Educational Offerings
Standard 11 – Educational Offerings

Group 7: General Education and Related Educational Activities
Standard 12 – General Education
Standard 13 – Related Educational Activities

Group 8: Institutional Assessment and Assessment Student Learning
Standard 7 - Institutional Assessment
Standard 14 – Assessment of Student Learning

As part of the selection process of the Comprehensive Model, several meetings and workshops were conducted with members of the Steering Committee. Consequently, each member of the Steering Committee later conducted several meetings with each working group. The standards assigned to each group were discussed and the fundamental elements that demonstrate compliance with those standards. A faculty meeting was conducted on February 11, 2011 to discuss the comprehensive model. The model was also included on the university homepage.

In the development of the investigation questions each working group identified the fundamental elements of each standard and their relevance to the mission, goals, and objectives of BCU. Each working group determined common areas with other standards. As part of the development of the investigation questions, areas of assessment were identified, areas of improvement to be considered, and evidences or documents needed to prove compliance of the standard.

Self-study Steering Committee

The Institutional Steering Committee appointed by the President is composed of 13 members representing the different institutional levels. These organizational levels include: Board of Trustees, President, Dean of Academic Affairs, Dean of Administration and Finances, Dean of Student Affairs, Development and Institutional Planning, Directors of Academic Colleges, Project Manager of Curriculum Review, and Faculty.
The Steering Committee included among its members the Chair, who is the Director of the Office of Planning and Institutional Development and a Co-chair, who is the Associate Dean of Licenses and Accreditations. Each member of the Steering Committee is head of a working group consequently facilitating coordination, flexibility, and communication.

**Functions of the Steering Committee**

- Head the institutional self-study
- Determine areas of importance
- Communicate to the University community the design of the self-study model
- Conduct orientation meetings with faculty, students, and administration
- Conduct meetings and workshops with working groups
- Conduct follow up meetings with the working groups
- Edit and submit the self-study comprehensive model
- Coordinate the MSCHE Vice-president visits to BCU.

**Self-study Steering Committee Composition (13 members)**

Self-study Working Group

Functions of Working Groups

The eight groups were appointed by the President based on recommendations made by the Steering Committee. The functions of each Working Groups are:

• Study the accreditation standards
• Identify the fundamental elements of each standard and their relevance to the institutional mission and goals.
• Identify areas of high priority within each standard.
• Identify evidence that demonstrates compliance with each standard
• Identify strengths and weaknesses in our compliance of standards
• Submit a rough copy of research questions identifying documents to evidence the compliance of a standard

Working Groups Composition

Working Group 1

Standard 1 – Mission and Goals

Standard 6 - Integrity

1. Fray Yamil Samalot, OP., PHD (P1), Member of the Board of Founders
2. Ms. Elayne Núñez (VP2), Acting Director of the Office of Human Resources
3. Prof. Awilda Padró, Faculty of College of Liberal Arts and Sciences
4. Dr. Ilia Suárez, Faculty of College of Education and Behavioral Professions
5. Dr. Mayra Rosario, Member of Board of Trustees
6. Prof. Brenda López, Faculty of College of Business and Technology
7. Dr. Daniel Torres, Faculty of College of Education and Behavioral Professions

Working Group 2

Standard 2 - Planning, Resource Allocation and Institutional Renewal

Standard 3 - Institutional Resources

1. Mr. Pedro Bermúdez (P), Chair, Planning and Institutional Development Director
2. Miss. Rosimar Ferrer (VP), Administrative and Finance Dean
3. Prof. Lydia Rivera, Faculty of College of Liberal Arts and Sciences

1 President of the Working Group
2 Vice-president of the Working Group

Inventory of documents for the Self-Study

- Report to the Faculty, Administration Trustees, and Students of Bayamon Central University by an Evaluation Team representing the Middle States Commission on Higher Education prepared after study of the institution’s self-study report and a visit to the campus on April 27-30, 2003.
- Pre-Monitoring Report to MSCHE submitted by BCU in October, 2004
- Follow UP Report Up Date submitted by BCU in September, 2005
- Report to the Faculty, Administration, Trustees, and Students by a Team Representing the MSCHE prepared after a visit to the Campus on October 11-12, 2005
- Follow-up Report to MSCHE submitted by BCU: Steps Taken to Strengthen Shared Governance, submitted on December 1, 2006.
- Periodic Review Report presented by BCU, June 2008
- Progress letter submitted by BCU in October, 2010. Steps Taken to Strengthen the Institution’s Finance and Steps Taken to Improve Enrollment and Retention
- BCU Strategic Plan 2007-2012
- BCU Faculty Handbook
- BCU Statutes and by-laws

Working Group Standards, Charges, and Research Questions

Working Group 1

P Fray Yamil Samalot, O.P., Ph.D.
VP - Ms. Elaine Núñez

Standard 1 – Mission and Goals

The institution’s mission clearly defines its purpose within the context of higher education and indicates who the institution serves and what it intends to accomplish. The institution’s stated goals, consistent with the aspirations and expectations of higher education clearly specify how the institution will fulfill its mission. The mission and goals are developed and recognized by the institution with the participation of its members and its governing body and are used to develop and shape its programs and practices and to evaluate its effectiveness.
Standard 6 – Integrity

In the conduct of its programs and activities involving the public and the constituencies it serves, the institution demonstrates adherence to ethical standards and its own stated policies, providing support for academic and intellectual freedom.

Working Group 1 will examine the institution's success in achieving its mission and goals as well as the level of adherence to our Christian-humanistic ethical standards and the institutional stated policies.

1. How effective is the University at accomplishing its mission? What established protocols and processes have been conducted to disseminate the mission, goals and objectives of our University among all the constituents? How effective have these processes been? How can we improve them?

2. How are the goals and objectives aligned with the institutional mission? Are the goals and objectives clearly articulated? How is this alignment reflected in institutional documents and practices?

3. How has the mission, goals and objectives impacted the decision-making environment? How well do the University’s mission, goals, and objectives guide the institution to provide an adequate environment for research, teaching and services?

4. How do we nurture the holistic development of the human being in the spiritual, communal and professional dimensions, as well as in the academic and cultural realms? How are these components assessed, revised and renewed in order to achieve desired outcomes? How is such assessment used to inform planning and resource allocation?

5. How are our institutional mission, goals, and objectives put into operation through institutional activities?

6. How do we evidence our community's participation in activities that facilitate or are responsible for institutional improvement and development? How are these groups selected?

7. How do we establish and evaluate the protocols to resolve student appeals and concerns? How do we determine the adequacy of the protocols?

8. How do our institutional policies and procedures secure and respect the general conditions conducive to academic freedom? How do we evidence the principle of academic freedom in the classroom?

9. How do we make public policies regarding the right of freedom of expression and the respect to diversity of ideas or viewpoints?
10. How do we promote our ethical principles among the university community? What policies provide specific rules and regulations to govern the conduct of our university community?

11. How does the process regarding intellectual property rights facilitate the identification, protection and promotion of intellectual property at our university?

12. How do we promote, defend and respect human rights?

13. What process do we use to ensure the integrity and veracity of the information disseminated to our community?

**Working Group 2**

P Mr. Pedro Bermúdez  
VP - Miss Rosimar Ferrer

**Standard 4: Planning, Resource Allocation, and Institutional Renewal**

An institution conducts ongoing planning and resource allocation based on its mission and goals, develops objectives to achieve them, and utilizes the results of its assessment activities for institutional renewal. Implementation and subsequent evaluation of the success of the strategic plan and resource allocation support the development and change necessary to improve and to maintain institutional quality.

**Standard 3: Institutional Resources**

The human, financial, technical, physical facilities and other resources necessary to achieve an institution’s mission and goals are available and accessible. In the context of the institution’s mission, the effective and efficient uses of the institution’s resources are analyzed as part of ongoing outcomes assessment.

*Working Group 2 will assess the alignment of the strategic planning and the resource allocation, paying particular attention to the links between the strategic planning and the institution’s budgetary process. This seeks to determine the extent and the appropriateness of resource assignment to fulfill our mission and goals.*

1. How effective have our institutional efforts been in involving our constituents in the institutional planning process?

2. What significant initiatives and projects have been developed in the last 5 years? To what extent has the strategic plan guided these initiatives and projects?

3. How effective has the strategic plan been? What issues should be refocused in the next 5 years? What other non-contemplated issues must be dealt with?
4. How is the budget (operating and capital) linked with the strategic plan? How do we evidence that the distribution of resources responds to the goals and objectives of the strategic plan?

5. How does the budget (operating and capital) support our institutional vision and mission?

6. How have we responded to the institutional financial constraints during the last 5 years? To what extent is our institution in a viable financial condition? What are our major financial challenges? How are we responding to these challenges?

7. How do we evidence our commitment and institutional capacity for the development and maintenance of physical facilities?

8. To what extent does our income depend on enrollment? What is the level of dependence of our students on Pell grants? How have our enrollment costs and dependence on Pell grants compared with similar universities over the past 5 years? What are the income diversifying strategies and their goals and objectives?

9. What evidence assures that our technological developments supports our strategic plan? How successfully have these developments been implemented?

10. How does the University ensure that resources are used effectively and efficiently, including appropriate cost containment and reallocation of resources?

**Working Group 3**

Mr. Pedro Bermúdez (P), Chair, Planning and Institutional Development Director
Dr. Luz Valentín (VP), Co-Chair, Associate Dean

**Standard 4 – Leadership, Governance**

The institution’s system of governance clearly defines the roles of institutional constituencies in policy development and decision-making. The governance structure includes an active governing body with sufficient autonomy to assure institutional integrity and to fulfill its responsibilities of policy and resource development, consistent with the mission of the institution.

**Standard 5 – Administration**

The institution’s administrative structure and services facilitate learning and research/scholarship, foster quality improvement, and support the institution’s organization and governance.

*Working Group 3 will assess the process and structure of its governance, paying particular attention to the reorganization processes. This will seek to determine the*
extent, appropriateness and effectiveness of our governance and administration structures to fulfill our mission and goals.

1. How does the shared governance demonstrate the effectiveness of the procedures used to update, write, edit, divulge and publish institutional policies and regulations? How do these procedures evidence the shared governance effectiveness?

2. How do the components of our governing body know their duties and responsibilities? To what extent does our community relate with the representatives of our governing body?

3. How effective are the strategies used by the Board of Trustees to get external fundraising? What are the new strategies and their goals and objectives?

4. How does the assessment of the president’s performance support our institutional mission and goals?

5. Over the last five (5) years, how have changes in the administrative structure responded to our needs? What has been the impact of the recent administrative reorganization?

6. How does our administrative body coordinate its efforts to improve efficiency in procedures and decision making? How are these efforts coordinated? How are subsequent changes in policies or procedures communicated to our community?

7. How adequately is the administrative structure staffed? Which services need to be reinforced?

**Working Group 4**

Prof. Niza Zayas (P), Student Dean Affairs

Ms. Christine Hernández (VP), Enrollment Management

**Standard 8 – Student Admissions and Retention**

The institution seeks to admit students whose interests, goals, and abilities are congruent with its mission and seeks to retain them through the pursuit of the students’ educational goals.

**Standard 9 – Student Support Services**

The institution provides student support services reasonably necessary to enable each student to achieve the institution’s goals for students.

*Working Group 4 will investigate recruitment, admission and retention policies and procedures to ensure their effectiveness. Once students are admitted, a compelling display of student support services are provided to secure the retention and academic*
success. This group was also in charge of addressing student support services effectiveness.

1. How effective has the implementation of the enrollment management plan been? How effective has student recruitment been at all academic levels?

2. How does our admission policy reflect the institutional mission and goals?

3. How do we address freshmen academic and social adjustment to university life? How do we provide academic, social and personal support? How do we include parents, guardians, and significant others?

4. How do student support services satisfy student needs and interests, in accordance with the institutional mission?

5. What is the effectiveness of student support services in assisting in the creation of student learning communities? How are students encouraged in peer learning, having study groups and social activities?

6. How do we provide support to students identified as being at risk? How effective are the students support services in student retention?

7. How do we encourage students with special needs to actively participate in campus activities?

8. How do we promote leadership skills through student organizations?

9. What policies and procedures protect student confidentiality and ensure accuracy of records?

10. How do external community programs or activities promote our institutional mission and goals? To what extent have students been integrated into these programs and activities?

**Working Group 5**

Dr. Haydee Domínguez (P), College of Education

Prof. Awilda Burgos (VP), College of Business and Technology Development

**Standard 10 – Faculty**

The institution’s instructional, research, and service programs are devised, developed, monitored, and supported by qualified professionals.

Working Group 5 will assess if the faculty meets our teaching and curricular needs. The Working Group will evaluate our institution’s faculty recruitment and professional development and its effectiveness to support our mission and goals.
1. How does the teacher student ratio facilitate the role and responsibilities of our faculty? How does it compare with other peer institutions? To what extent is the faculty numerous enough to meet the academic and service needs of the students?

2. How does the faculty integrate academic activities to include: teaching, learning, research and academic services? How effectively do our tenure and promotion policies support this integration? To what extent have these policies been equitably and fairly implemented?

3. To what extent have faculty been provided with sufficient time and resources to pursue professional development? How have these development efforts impacted the community?

4. Describe how the quality of the faculty meets the teaching and curricular needs of the University? What are the main criteria used to determine qualification for a position? How effective are the policies and procedures related to recruitment, appointment, and retention of our faculty?

5. What additional processes and criteria, if any, are used to recruit faculty in areas of difficult recruitment?

6. To what extent are the procedures for hiring and evaluating temporary faculty consistent with those for regular faculty? When a college has a high percent of part time faculty, how do we ensure that the responsibilities in terms of teaching, advising, and other academic services are met?

7. How effective are the strategies used to encourage faculty in the design, review and establishment of new academic programs and to participate in community service and other activities related to our institutional mission?

8. How are priorities set in the professional development of faculty? How are these priorities reflected in the budget?

9. How has faculty development opportunities changed during the last five years? To what extent are these opportunities equitably distributed across the University?

10. How do we guarantee the acquired rights and benefits of the faculty members?

**Working Group 6**

Dr. Pura Echandi (P), Academic Dean

**Standard 11 – Educational Offerings**

The institution’s educational offerings display academic content, rigor, and coherence appropriate to its higher education mission. The institution identifies student learning goals and objectives, including knowledge and skills, for its educational offerings.
Working Group 6 will assess if our educational offering and academic services respond to our mission and goals. The Working Group will evaluate curriculum effectiveness in meeting the needs of students and society.

1. To what extent does the academic offering display the instructional content, rigor and coherence appropriate to the institution’s mission and goals? How do the curricular revision process and the development of new academic offering integrate the institutions mission and goals?

2. To what extent does the curriculum provide for the integration of disciplines and knowledge? How is technology, management information skills, communication skills, support services and research integrated into the curriculum of each academic program?

3. How effective are the systematic curriculum review processes in determining the development of new academic programs and curriculum needs? How do the institutional curricula meet student needs and preferences, professional requirements and employment changing scenarios? How satisfied are the students, faculty, employers and professional organizations with the adequacy and relevance of our curriculum?

4. How do we evidence that our alumni possess the necessary skills for their discipline or profession?

5. How is the assessment of student outcomes integrated into our curriculum revision, program development and course planning?

6. How do our Curricular Development Plan and the Strategic Plan align?

7. ¿How does our academic support services provide our students and faculty with the necessary support to promote the academic and personal development of students?

Working Group 7

Dr. Juan Mejías (P), Curriculum Review Committee

Standard 12 – General Education

The institution’s curricula are designed so that students acquire and demonstrate college-level proficiency in general education and essential skills, including at least oral and written communication, scientific and quantitative reasoning, critical analysis and reasoning, and technological competency.

Standard 13 – Related Educational Activities

The institution’s programs or activities that are characterized by particular content, focus, location, mode of delivery, or sponsorship meet appropriate standards.
Working Group 7 will assess if our General Education Program and related educational activities promote our mission and goals. The Working Group will evaluate their effectiveness in meeting the student needs to acquire the competencies of their discipline or profession. Attention will be given to the alignment and consistency of our Certificate Program with our institutional practice.

1. What strategies do we use to ensure quality and comply with the contact hours required for the intellectual development of the student at associate, bachelor and master degree levels?

2. How do we evidence the curriculum alignment between the General Education Program and the various areas of concentration?

3. How are the goals and objectives of the Education Program aligned with our institutional mission and philosophy?

4. How does the General Education Program help the students acquire competencies in their discipline or profession? How do we use the results of the student learning assessment to improve the curriculum of the General Education Program?

5. How do we evidence the support given to the General Education Program in terms of administrative structure, budget and incentives for faculty? How do we divulge the General Education Program requirements?

6. How do we identify under prepared students and what academic support programs and services are available for them?

7. How do we evidence that the goals and objectives of the Certificate Program are aligned and consistent with our institutional mission and philosophy?

8. How do we evidence the participation of faculty and other academic professionals in the design, operation and evaluation of the Certificate Program?

9. What policies and procedures do we use to grant credit for experiential learning? How are they made known and publicized? How does faculty participate in this process?

10. What strategies do we use to develop courses and distance learning programs? How does distance education strengthen our institutional vision, mission and goals?
Working Group 8
Dr. Luz Valentín (P), Co-Chair, Associate Dean
Dr. Pura Echandi (VP), Academic Dean

Standard 7 - Institutional Assessment

The institution has developed and implemented an assessment process that evaluates its overall effectiveness in achieving its mission and goals and its compliance with accreditation standards.

Standard 14 – Assessment of Student Learning

Assessment of student learning demonstrates that, at graduation, or other appropriate points, the institution’s students have knowledge, skills, and competencies consistent with institutional and appropriate higher education goals.

Working Group 8 will evaluate the usefulness of the assessment plan in our institution and how this plan helps the faculty and staff to make appropriate decisions about improving programs and services.

1. How does the Institutional Assessment Plan support our institutional mission and goals?

2. How does the governance structure provide support to the process of institutional assessment? What action have we taken to develop a training program in assessment for faculty and administration?

3. How do we evidence that our academic programs help our students achieve their personal and professional goals?

4. How do we incorporate the assessment outcomes in institutional renovation plans, the strategic plan, and in the prioritizing and resource allocation process? How are the outcomes used to improve academic programs?

5. How do we evidence the use of our student learning assessment outcomes in the educational offering, the General Education Program, and related educational activities? To what extent do we document student success?

6. How adequate are our physical facilities to encourage and support student learning?

### Organization of the Self-study Report

Bayamón Central University will conduct a comprehensive self-study and the organization of the resulting report will be based on the 14 standards of Middle States Commission on Higher Education as addressed by the eight working groups. Each of the working groups will draft its own chapter or chapters. Every chapter will include a summary of major findings from the research questions addressed and, where appropriate, will provide suggestions or action plans for improvement. The self-study report’s conclusion will include a summary of all suggestions and plans for improvement. In brief, the report structure will be as follows:

- **Chapter I:** Overview of the Institution
- **Chapter II:** Executive Summary
- **Chapter III:** Mission, Goals and Integrity (Standards 1 and 6)
- **Chapter IV:** Planning, Resource Allocation and Institutional Renewal, Institutional Resources (Standards 2 and 3)
- **Chapter V:** Leadership and Governance, Administration (Standard 4 and 5)
- **Chapter VI:** Student Admission and Retention and Student Support Services (Standard 8 and 9)
- **Chapter VII:** Faculty (Standard 10)
Chapter VIII: Educational Offering (Standard 11)

Chapter IX: General Education and Related Educational Activities (Standard 12 and 13)

Chapter X: Institutional Assessment and Assessment of Student Learning (Standard 7 and 14)

Chapter XI: Conclusions and Summary of Recommendations

Appendix

Editorial Style

• Each working-group report should be completed in Word and submitted by e-mail to the Steering Committee.

• For the working-group reports, simple formatting should be used so that removing or changing formatting will not be difficult when the reports are compiled for the University’s self-study document. For example, rather than using the space bar to indent several spaces, use the tab key or other Word tools for indenting and/or aligning text.

• Working-group reports should be carefully edited before they are submitted. The writers of individual reports will use the APA format with which we are most familiar.

Profile of the Visiting Team

BCU is a Dominican Order, Catholic private non-profit institution of higher education, located in Bayamon, Puerto Rico. Founded in 1961 as a two-year regional college, it has continued to grow, offering associate degrees, bachelors and masters. In the fall of 2010 BCU had an enrollment of 1,497 full-time students and 599 part-time students for a total enrollment of 2,096 students. 71% female, 92% are low income families and 89% percent are first generation students.

BCU offers undergraduate and graduate programs in Business Administration, Education, Science, and Psychology.

BCU’s evaluation team should be composed of four to five members who are familiar with the challenges of a catholic university as a sponsoring governing group. Members should be familiar with institutions that serve minority populations, First Generation College students, and that share our mission, vision, and philosophical principles.

We suggest that the evaluation team include evaluation expertise in:

• Academic programs in Business Administration, Education, Arts and Science.
• Information Literacy and Library Technology
- Enrollment Management
- Budgeting and Finance
- Institutional Assessment

We also suggest that the following Institutions meet the before mentioned requirements:

- Providence College (Providence, RI)
- Barry University (Miami, Florida)
- Aquinas College (Grand Rapids, MI)
- Caldwell College (Caldwell, NJ)
- Ohio Dominican University (Columbus, OH)
- Siena Height University (Adrias, MI)
- University of Dayton (Dayton, OH)
- Marist College (Poughkeepsie, NY)

Conclusion

Bayamón Central University enthusiastically embraces the opportunity that Middle States Commission on Higher Education self-study provides for fully understanding the effectiveness, challenges, and opportunities of all areas of the institution. The members of the Steering Committee and the working groups are eager and committed with the self-study. The self-study process will set a firm foundation from which we are going to develop our next strategic plan and move forward.
